Durlon® 9400 Usage in HF Service

Feb 23, 2021

Re: Durlon® 9400 HFIPI Compliance

Triangle Fluid Controls certifies that Durlon® 9400 is on the list of products suitable for service provided by Hydrogen Fluoride Industry Practices Institute (HFIPI).

According to Materials of Construction Guideline for Anhydrous Hydrogen Fluoride and Materials of Construction Guideline for Hydrofluoric Acid Solution (Aqueous), PTFE sheet with carbon filler has been successfully used in flanged closures in AHF service and aqueous HF service, respectively.
